BOTHAY, ALABAMA WEDNESDAY AFTERNOON, APRIL 15, 1914

American Dreadnaughts Leave For Mexico

BLOCADE MEXICAN COAST PRES. DETERMINED TO END INSULTS

Washington, April 15 .- A com-Mexico will be the first action by the United States against Huerta. It was learned at the Navy Department today that all warships on the Pacific coast will be sent to the west coast of Mexico without delay. Fleets will be ready to put the blockade into effect in ten days.

Centorship on Mexican news was came known that the arrests of rines at Tampico was only one of incident an orderly from the American ships at Vera Cruz went ashore to get the vessels' mail and was arrested and imprisoned.

Official dispatches to Charge O'Shaughnessey have been held up and censored by Mexican officials. President Wilson has finally determined to put an end to these in-

breadmanghts Rushed to Mexico. All records have been broken by the many department in carrying H. O. Hay, who took charge of the out President Wilson's order tol rush massive dreadnaughts and feet of cruisers to Tampico to upthe nation's honor and en Rag. Attaches of the naval departworked nearly all night and luc happy. Only a few odds and forming and the department is the swift execution of the war with Spain.

Reports from all along the coast say ammunition and supplies are ate departure. The entire Bayy is jubilant over the prospects action. The war department is will be called on. Twelve

Humanitarian Interests

Personally, a merchant's first interest, his first thoughts, are of his customers; if he is a broad minded merchant he studies hard how best to serve them.

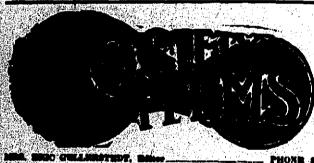

We believe that old truth—"All work and no play, makes Jack a dull boy." For this reason we think that by closing our store at six o'clock in the evening, after a hard day's work, the clerks will come back next day much refreshed and better able to serve our patrons.

We believe our customers will feel enough human interest in these tired clerks to come early in the afternoon to do their shopping.

Beginning today, April 15th. we will close every day except Saturday at six o'clock.

We feel sure you will co-operate with us in this move.

BIG AGRICULTURAL LAND OPENING

pective settlers in throwing open Twesty Thousand Acres of Rich, Southern Georgia Land, which is admirably adapted to the growing of celery, sweet and Iris potatoes, cantelouses, water melons, corn, oats, cotton, hay—in fact, all staple crops grown in this fertile section, as well as a large

variety of semi-tropical friits, and the famous funciensely profitable maper-shell necans.

Providing you are eligible under the classification prescribed by us, you are now offered an excellent opportunity to break away from the drudgery and tol of a small wage, or working for the benefit of landfords, and go back to the land of plenty, to which, if granted, you will hold a carranty deed and abstract.

deed and abstract. hest security on earth is the carth itself, and land is to basis of all wealth. Owners of a lands are benefiting by the incremning cost of living, while others are suffering from it.

An Opportunity to Secure Rich Productive Land Without Capital.

You will not be required to leave your pres-surroundings now. All we ask of those to ent surroundings now. All we ask of those to whom we grant tracts is that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 percent, of the net profits derived from the sale of the erops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine fust what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to \$1.268.45, and that one acre of well-cared for pher shell pecans, in full bearing, should ned its \$1,268.45, and that one acre of well-cared for paper shell pecans, in full hearing, should net its owner as high as \$500 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further arging, and waste no time in locating in this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it; otherwise it reverts back to the grantor. back to the grantor.

back to the grantor.

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Raitroad, about twenty-five miles west of Brunswick, thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the reserving transportation facilities in an excellent railroad. portation facilities to all points. The average temperature for six months of the year, from April to October, is 72 degrees; the climate is most healthful, delightful, and invigorating, and there is an ample rainfall of 51 inches per year. AUR AIM IS FOR MUTUALLY BENEFICIAL.

REALITY.

As we are extremely desirous of having settlers locate on this property, and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta. Birmingham, and Atlantic Reitiond, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will not be included in it. We have "Womey-making afterward" coasiderstions in this liberal minded opening, similar to those SOUTHERN GEORGIA RAILROAD

of the Northern Pacific and other ratiroads when they granted their lands and we expect to benefit thereby, as well as the ones who will receive the tracts.

We have also planned to develop what is de-

signed to be the best equipped, most up-to-date scientific, commercial farm and orchard in existence. It will consist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue there-on. While we are arranging to prevent over res-stration, we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and rait-rounds by granting those who register in excess of the number of tracts to be granted, as infer-est in this commercial farm and orchard enter-

price, in the hope that they may later locate in one of cur town sales.

Examination of the land will cheerfully be permitted, and the opening will be held at Brownstown. Wayne county, Georgia, one of the A. B. & A. Railroad, which is located on this property, and will occur as soon after the closure of registrations. closing of registrations as arrangements can be

price, in the hope that they may later locate in

The presence of those registered will not benecessary at Browntown on the opening day, un-less they wish to attend, for there will be an favoritism shown anyone. It will he conducted by a committee selected for the purpose, and these registered will be notified of what they have

been granted, as soon as possible.

With the ever-increasing possible, of this country there is no corresponding increase in the creases and nects the hand in possible for creases and nects the hand in possible for the happiness and independence, it will continue to be harder to necest.

The prosperous and contented class in Ex-

The prosperous and contented class in Et-The prosperous and contested class in rope today are the descendants of these who secured land there when it was plentiful, while the descendants of those who obtained as land are now the peasants and slave. You must reside that this may be your last chance to secure lead in this country without a large outlay of capital, so it should not be necessary to arge you to act at once by forwarding us the application for resistantian attended to this amountment.
